

Master of Science (Medical Physics)

This program is only available to international students in 2012 where there is no corresponding Master of Research Studies program

These Program Rules should be read in conjunction with the University's policies (<http://www.adelaide.edu.au/policies>).

1 General

- 1.1 This document must be read in conjunction with:
- a the General Academic Program Rules for Master by Research Programs (see under Adelaide Graduate Centre) *and*
 - b the Research Student Handbook, published by the Adelaide Graduate Centre.

These documents explain procedures to be followed and contain guidelines on supervision and research for the degree of Doctor of Philosophy and the various Masters Degrees by Research, offered by the University.

All students must comply with both the General Academic Rules and the rules following below, and procedures outlined in the Research Student Handbook.

In addition to the General Academic Program Rules for Masters by Research degrees, in this publication, the following discipline specific rules apply.

2 Qualification requirements

- 2.1 As part of the Structured Program each candidate for the degree shall complete the following components of coursework:
- Anatomy and Physiology (Medical Physics)
 - Physics of Imaging
 - Radiation Biology, Protection and Epidemiology
 - Radiotherapy Physics
- 2.2 Each candidate shall complete a thesis on an approved research project with clinical or field application, undertaken at an approved research institution.
